

Student course registration in SPAN begins Saturday, March 15 and ends March 23. Students will receive instructions on how to do this at home on Friday during 4th period. Instructions will also be available online under "registration". Although the deadline to submit signed confirmation forms is Monday, March 24, all students are encouraged to register on Monday - Wednesday so that they can return necessary documents to the first period teacher on Thursday, before the Easter weekend. Students can get assistance in the Media Center on the main campus before and after school, as well as during lunch. Students at Wakefield North can also get help in the Media Center before and after school, but should report to room 1302 during lunch.

Counselors will be available for students during these times.

Parents, keep in mind, students should use their login to register for courses. If you'd like to have access to SPAN, we prefer that you complete the SPAN application for your own username and password. We've had numerous student requests for password resets due to parent use mistakes. You are strongly encouraged to use SPAN, but under your own login. Application forms are available in the main office as well as online. Thank you for your assistance in this matter.

There are only 8 days left for AP exam registration. Students will not be able to register after March 26. Students should go to Student Services before first period and during lunch only.
