

Next week is the final week for AP exam registration. Students wishing to take AP exams in May have until Friday, March 27 to sign up. Completed registration forms and payment must be delivered at the same time. Students should report to Student Services during lunch or before school.

This is the final weekend students have access to SPAN for course registration. Please encourage your students to log on if they have not done so already. Counselors continue to be available before and after school, as well as during lunch for assistance. Students who do not take advantage of selecting their own courses will have their courses selected for them without the possibility of changing at a later date. Student log ins must be used for this specific activity. SPAN instructions are posted on the registration page of the school website. Hardcopies are also available in Student Services.

There has been an increase in the inquiry of dual enrollment. Parents and students can access general dual enrollment information by visiting the Student Services information webpage through the school website at www.wakefieldhs.net. We are currently preparing students to register for Health Science Huskins courses at Wake Tech next year. Whether Nursing, Dental or EMT, students must attend orientation in April. Contact your student's counselor for more details.
