

This is Mark Savage, Principal of Wakefield High School with a weekly announcement.

Second semester schedule change requests begin Monday, December 8. Students are strongly encouraged to log onto SPAN prior to January 9, 2009 to make necessary requests, which should reflect one of the reasons listed on the SPAN webpage. Beginning this year, there will be no schedule change requests for different courses once the new semester begins,

Students and parents should maintain and use their own separate SPAN accounts. We have experienced a high volume of student accounts being locked due to parent misuse. Students should use their own username and password. Parents, be reminded, you are still able to view academic, attendance and behavior information using your own log in information. SPAN parent account request forms are available in the main office of both campuses as well as online through the school website.

Two new academic assistance opportunities are now available for students. Members of National Achievers Society offer lunch time tutorials on Tuesdays and Thursdays during all three lunches on the main campus. Help is for all core subjects. 9th grade students can receive peer tutoring after school at the north campus, room 1408, from 2:30 to 3:30pm. Mondays and Wednesdays are reserved for Math, Science and Spanish. Tuesdays and Thursdays are reserved for English and, World History. Assistance is available in all subjects on Fridays. No appointments are required. Students can simply show up for help.

Any senior who has not ordered a cap/gown must complete an order by next week. Contact Jostens at 789-8500 to place an order.
